## 公司简介 ABOUT US

江苏绿氢电极有限公司坐落于历史文化名城扬州。是一家专业从事制氢设备产业链开发和生产的技术企业。公司设有织网，热喷涂，电镀镍三大事业部，从而更加完善的配套服务于碱性电解槽设备用户，并得到国内外客户一致好评。公司以用户需求为动力，以产品创新为驱动，以新思路引领高质量发展。未来公司将一直致力于制氢设备产业的发展，应对氢能领域内日新月异的挑战。

Jiangsu Green Hydrogen Electrode Co.,LTD is located in Yangzhou city, which is a famous historic and cultural city. The company is a professional technology enterprise, majoring in development and production of hydrogen equipment industry chain. The company has three main business departments: woven mesh, thermal spraying and nickel plating. The three divisions together can offer perfect service for our alkaline electrolyser equipment users. The company also gains the full recognition by the mass customers around the world.

The company takes the users demand as motive force, the product innovation as driving force, the new ideas as basis for high quality development.

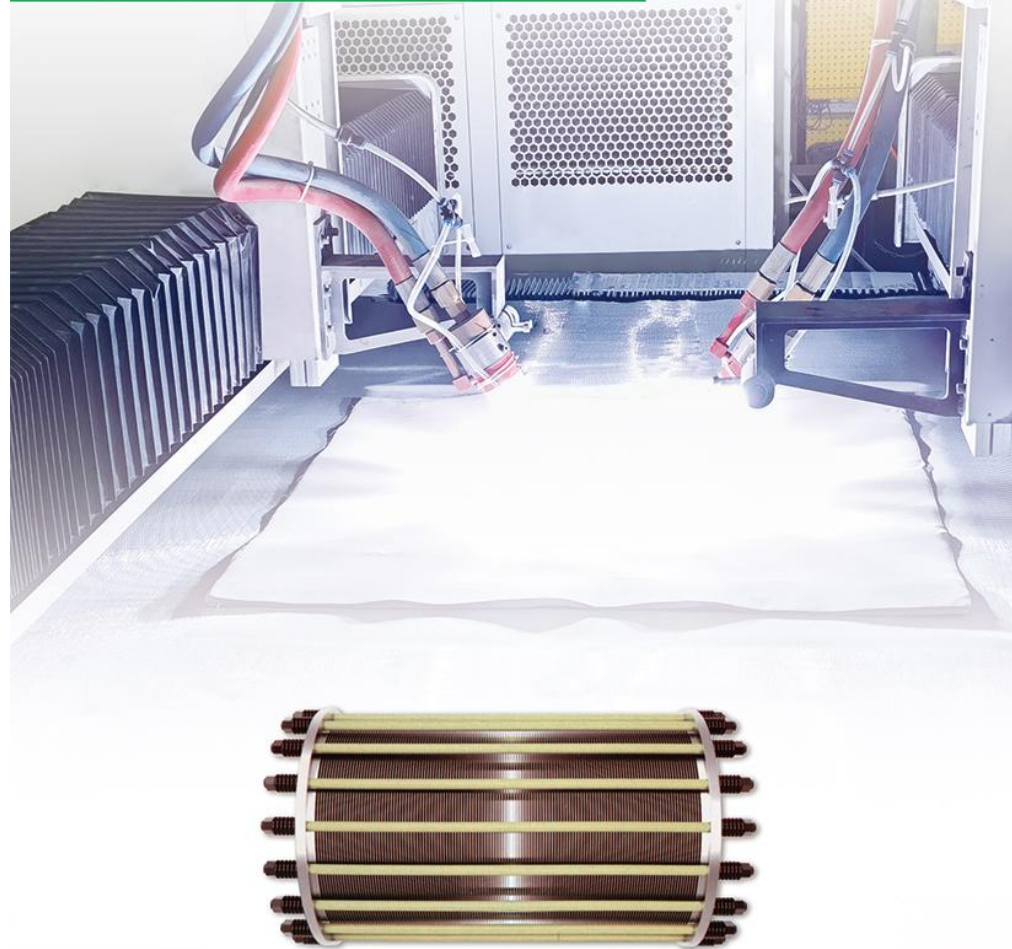

In the future, the company will be committed to the development of hydrogen equipment industry, and face the never-ending challenges in the field of hydrogen energy.

## 碱性电解槽制氢电极网喷涂

HYDROGEN ELECTRODE NET SPRAYING OF ALKALINE ELECTROLYSER

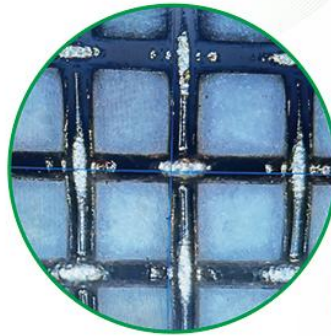

## 镍丝网喷涂

NICKEL WIRE MESH SPRAYING

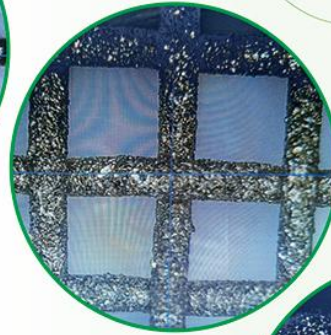

## 电极参数 PARAMETERS OF ELECTRODE

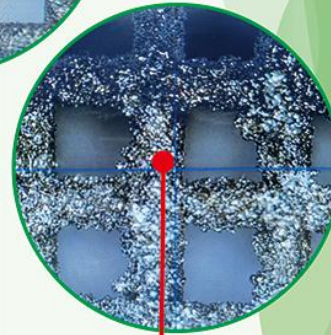

### 传统型 Traditional model

NiAl粉体混合, 2.0V@电流密度: 3000-3500A  
NiAl powder mix, 2.0V@ current density: 3000-3500A

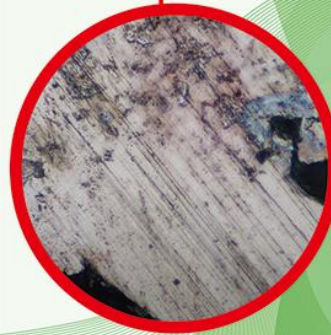

### 二代新型 Second generation new model

1.8V@电流密度: 2800-3000A  
1.8V@ current density: 2800-3000A

### 三代新型 Third generation new model

产品测试效果极佳, 具体数据电询  
testing result is excellent, telephone consulting for more details

## 产品检验 EXAMINATION AND TEST OF PRODUCT

## 售后服务 AFTER-SALE SERVICE

创新求突破，科技促发展。

Innovation for breakthrough, science and technology for development.

创新求突破，科技促发展。
